Govind Vishnu Mahajan Vidhyalay , Malkapur

PROJECTS

Courier Management System completed

Developed a courier management system using ADO.NET, C#, and SQL Server to streamline courier operations. Implemented the branch module for managing package tracking, delivery assignments, and reporting. Utilized ADO.NET for efficient database connectivity and optimized performance.

Matrimony Platform (admin & User) Ongoing

Developing the admin panel of the matrimony that can monitor all the activity with various features using ASP .NET MVC , SQL server , Ajax , HTML , CSS , Javascript , and other web technologies
